

ARUP DATTA

Systems Engineer | Technical Project Coordinator | IT Infrastructure & Network Operations

Chattogram, Bangladesh | +880 1919 274914 | arup281@gmail.com

PROFESSIONAL SUMMARY

Results-driven Systems Engineer and Technical Project Coordinator with 10+ years of experience across network engineering, IT operations, and end-to-end IT/ITES project delivery. Proven track record maintaining reliable infrastructure, coordinating cross-functional technical teams, and serving as the primary liaison between clients, developers, and stakeholders. Skilled in requirements gathering, technical documentation, incident resolution, and driving technology initiatives to on-time, in-scope completion. Adept at translating complex technical concepts into clear communication for non-technical stakeholders.

CORE COMPETENCIES

IT Project Coordination & Management • Systems & Network Engineering • IT Infrastructure Administration • Stakeholder & Client Communication • Requirements Gathering • Incident & Root Cause Analysis • Network Monitoring & NOC Operations • Technical Documentation & Reporting • Cross-Functional Team Collaboration • IT Support & Troubleshooting • Vendor & SLA Management

PROFESSIONAL EXPERIENCE

Lead Project Coordinator (IT)

2021 – Present

KAR Communications (Operational Partner of HelloWorld Communications Ltd.) — Chattogram, Bangladesh

- Coordinate end-to-end IT/ITES projects, aligning technical development teams, timelines, and stakeholders to deliver infrastructure and technology solutions on schedule and within scope.
- Serve as primary point of contact for clients, managing communication through emails, presentations, and meetings to gather requirements, provide status updates, and ensure alignment with project objectives.
- Facilitate coordination between development teams and clients, resolving issues promptly and maintaining clear documentation throughout the full project lifecycle.
- Prepare technical documentation, status reports, and stakeholder presentations to support project planning, progress tracking, and knowledge transfer.
- Apply project management and communication best practices to keep complex, multi-stakeholder initiatives on track while upholding quality standards and client satisfaction.

Senior Executive (IT)

2017 – 2020

Genex Infosys Limited — Chattogram, Bangladesh

- Supported day-to-day IT operations, applying networking and systems administration expertise to maintain secure, stable, and high-performing infrastructure.
- Monitored and troubleshoot network and system issues to minimize downtime and ensure operational continuity across the organization.
- Collaborated with internal teams to implement BPO technology solutions and process improvements that enhanced system reliability and security.
- Contributed to IT documentation and knowledge-sharing initiatives that improved team efficiency and onboarding.

Senior Network Engineer (NOC)

2013 – 2016

AKCEYCOM Limited — Dhaka, Bangladesh

- Monitored core network infrastructure 24/7 from the Network Operations Centre, tracking performance metrics and responding swiftly to incidents to maintain system uptime.
- Performed proactive troubleshooting, root cause analysis, and resolution of network-related issues in a high-pressure, time-sensitive environment.

- Implemented network monitoring tools and processes that improved infrastructure reliability and performance.
- Collaborated with cross-functional teams to support network optimization initiatives and infrastructure projects.

EDUCATION

Bachelor of Engineering (B.Eng.), Computer Science and Engineering

University of Chittagong, Chattogram, Bangladesh

CERTIFICATIONS & PROFESSIONAL TRAINING(S)

- CCNA – Cisco Certified Network Associate
- MTCNA – MikroTik Certified Network Associate
- MTCRE – MikroTik Certified Routing Engineer
